***Imperial Imaging Technology Named One of America's Fastest-Growing Private Companies by Inc. Magazine***

**Kennesaw, GA – August 12, 2025** – Imperial Imaging Technology has been named to the [2025 Inc. 5000 List of Fastest-Growing Private Companies in America](#). Imperial ranked 34th among all companies in Georgia, 96th in the healthcare/medical sector, and 889th nationally, recognizing the company's consistent growth and leadership in the medical imaging space.

Each year, the [Inc. 5000](#) list spotlights the nation's most successful independent businesses, recognizing those with impressive revenue growth over the past three years. The list reflects a dynamic group of innovators, problem-solvers, and trusted industry partners. Imperial Imaging Technology's inclusion reflects its ongoing dedication to supporting healthcare professionals across all sectors.

"With a commitment to unmatched service and industry expertise, Imperial continues to expand its reach and impact," said Aaron Pressley, President of Imperial Imaging Technology. "We're incredibly proud of our passionate team and the dedication it took to earn a place on the *Inc. 5000* list."

Imperial provides reliable imaging equipment and accessories, as well as maintenance services for medical imaging equipment to assist hospitals, clinics, and medical facilities deliver exceptional care and improve patient outcomes.
