Diagnostic X-ray System

GXR Diagnostic X-ray System

Simple to Premium

The GXR diagnostic X-ray system matches with a radiographic room which perfectly fits your workflow. It can be easily upgraded to a DR system with the help of the DR interface and PC interface in the GXR generator, as well as the FPD(Flat Panel Detector) compatible Bucky.

The GXR X-ray system is equipped with a high frequency X-ray generator which consistently produces high quality X-ray output, with a very small kV ripple and accurate mA & mAs.

The GXR X-ray system is designed to provide convenience to the operator and comfort to the patient.
